APM Expands on High Performance

APM HEXSEAL has announced the expansion of its line of **high-pressure**, high-temperature, sealing boots designed to handle external pressures up to 1,500 psi (103bar), and temperatures from -80°F to +400°F (-62°C to +204°C).

APMs Patented High Performance

APM manufactures a wide range of high-performance switch, potentiometer and circuit breaker sealing boots that are compatible with most toggle, pushbutton, rotary and rocker style actuators. UL Recognized and RoHS Compliant, millions of APM parts are on active duty throughout industries and the military, maintaining reliability and prolonging the life of vulnerable control components throughout the world.

Intelligent Performance is APM Hexseals IQ Series
