ASK APM

What's so special about APM's Self Sealing Screws?

APM Hexseal invented and patented pre-assembled self-sealing screws known as SEELSKREWS, that are designed to provide both fastening and sealing integrity in a single unit. Our design features a resilient o-ring held captive in a precision engineered groove under the fastener head. This combination of precise groove geometry and o-ring characteristics results in an absolute seal regardless of surface finish, while still providing full metal-to-metal contact.

Compelling Advantages:

- Reusable
- No prep or curing
- Easy field service
- No environmental issues
- No human health issues
- No correct formula to seal issues
- Sealing up to 20,000 psi
- UL Recognized

Made in the U.S.A., APM's SEELSKREWS are available in standard and metric sizes in a wide choice of head and fastening types including thread forming and tamper resistant.

DID YOU KNOW?

APM offers Self-Locking Add-Ons to our Self-Sealing Fasteners.

When vibration is an issue, APM offers a choice of proven resistant and adjustable Nylon thread locking devices in the form of thread-embedded pellets, strips and pre-applied thread-patches. Other materials are also available.

See all the APM Hexseal Sealing Products at DSEI at the stand of our premier UK distributor, Air & Marine Products (stand # N3-460)

DSEI brings together the entire defense and security industry to source the latest equipment and systems, develop relationships, and generate new business opportunities.

As the-attend event for 2015 with more exhibitors and educational content than ever before, DSEI will give you access to:

- 1,500 international exhibitors an unrivaled range of suppliers from 121 countries
- Specialized Air, Naval, Land, Security, Medical and Unmanned Zones
- 6 dedicated seminar theatres offering free educational sessions and showcases
- Over 40 pavilions including South Korea, Brazil, India, Australia, UK, USA
- Expanded live Waterborne and Unmanned Systems Demonstrations
- Static vehicle displays for land, air and naval sectors - DSEI's biggest offering yet
- International visiting naval ships available to tour
- Unmanned focus - UAS Conference
