DID YOU KNOW?

APM HEXSEAL IS EVERYWHERE!

Little known fact: if it's in the rain, in the cold, outside, inside with dust, on a high-vibrational device, in the elements, it probably has APM on board. APM Hexseal self-sealing products play a role in most government agencies, military, public and private sector corporations that require high-quality, reliable, high-performance devices, equipment and machinery.

For example, APM self-sealing fasteners and Hexseal switch boots are used by leading manufactures of LED lighting fixtures, cabinets and enclosure fabrication, such as:

- Outdoor lighting, street and parking lot lighting
- Graphic signage
- Architectural lighting
- Emergency light - automotive, commercial
- Signs, scoreboards, billboards

The outdoor lighting corporations, for instance, use our APM SEELSKREW® and SEELOC® Washer lines, among others. The SEELSKREW® is the original self-sealing screw designed and patented by APM. Our self-sealing screws are designed to seal out air, water, lubricants and other liquid or gaseous contaminants. They are

available in many standard thread sizes and with a variety of different sealing materials. When vibration is an issue, our self-sealing screws can also be supplied with either self-locking pellets, strips or patches. Optional black oxide finish, painted heads, or captivation (KAPTO-SKREW®) configuration are also available on request. Sheet metal and other type self-sealing fasteners available on special order. SEELSKREWS self-sealing screws are pre-assembled to provide both fastening and sealing integrity in a single unit. The unique design features a resilient silicone O-ring held captive in a precision engineered groove under the head. Vibration-resistant and reusable, they can withstand internal and external pressures/vacuum to 20,000 psig.

SEELSCREW Self-Sealing Screws Features and Benefits:

- Positive sealing under vacuum or pressure
- Install like a conventional fastener
- Reusable & compatible with all surface finishes
- Full 360° metal-to-metal contact assures fastening integrity
- Optional O-ring seal materials - silicone rubber, BUNA-N, *Viton®, others

- Uniform, high-strength design
- UL Recognized
- DFASRS Compliant
- Made in USA

APM NEWS

APM HEXSEAL FEATURED AT NEW-TECH EXHIBITION IN TEL-AVIV

APM Hexseal will be conducting a seminar at the New-Tech exhibition in Tel-Aviv, Israel, on May 19-20, 2015, with a focus on how to seal control devices from environmental attack.

Topics covered will include:

- How to select the right protection
- Is a "sealed switch" the answer to my problems?
- Is there a universal boot for all conditions?

- Can I color code?

APM Hexseal's full range of sealing hardware will also be covered, for sealing control enclosures and for sealing process equipment.
