APM NEWS

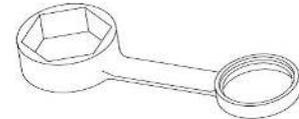

APM Case Study Applications

APM was called upon to design a reliable sealing solution that would withstand the harsh conditions of the medical and food industry standards. Provided with detailed

specifications, a single-piece molded design tethered connector cap with embedded Logo was the solution [APM Hexseal](#) developed.

Specifically designed to provide a water tight seal and hold up in even the most harshest environments.

DID YOU KNOW?

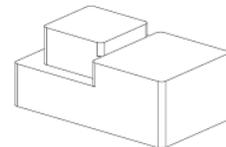

APM provides Custom control switches covers that out perform in the Harshest Environments

Apm was called upon to design a reliable seal that stays in place under harsh working conditions.

APM designed the answer: A custom [switch seal](#) to guard against trapped food particles thus preventing damage

as well as bacteria growth. This rubber cover provided a reliable seal versus heavy wash-downs and is resistant to cleaning solvents and potentially corrosive chemicals. APM's patented designs also permit easy viewing of colored switches during operation of equipment. Innovation is a part of [APM Hexseals patented products](#), designed to provide integrity in any environment.

Need a Custom Turn Switch Breaker Boot Seal?

APM was asked to design a reliable seal for not only a breaker but a turn switch breaker.

The boot needed to be able to hold up to the harsh weather conditions at sea as well as provide a reliable boot seal for a turn switch that had a 30° turn travel distance. In addition the design had to include both reliability as well as function to avoid interference with the breaker. **APM Hexseal** designed the turn switch breaker boot seal to every specification and included in the design

an easy installation process in production as well as aftermarket installation.
