## APM NEWS

### Sealing Above and Beyond

Tough, pliable **Hexseal®** and **E-Seel®** silicone rubber boots are designed for the protection of toggle switches, push button switches, rocker switches and rotary switches. They seal the mounting hole for increased protection from; wash downs, salt water, lubricants, cleaning solvents, dust, dirt, grease and even the harshest environments. Not just any solution to your situation, **APM Hexseal** provides the best choice to seal the deal.

## DID YOU KNOW?

### APM Hexseal has an O-Ring Sealing Solutions for Any Environment

**APM Hexseal's** patented, pre-assembled self-sealing screws and fasteners provide both fastening and sealing integrity in a single unit. APM's unique design features a resilient silicone O-ring held captive in a precision asymmetrical groove under the head. Ensure your equipment is safe secure and sealed by checking out your options on our [website](#).
