APM NEWS

Pre-Assembled Self-Sealing Screws and Fasteners Provide Both Fastening & Sealing Integrity in a Single Re-Usable Unit

APM Hexseal offers a line of unique designs that feature a resilient silicone O-ring held captive in a precision asymmetrical groove under the head.

Vibration-resistant and reusable screws, bolts and nuts are proven to withstand internal and external pressures/vacuum to 20,000+ psi. When vibration is an issue, **APM offers** a full line of pre-applied self-locking techniques.

DID YOU KNOW?

APM Hexseal Designed and Patented Your Sealing Solution

The **APM line** of self-sealing washers and fasteners are designed to seal out air, water,

lubricants and other liquid or gaseous contaminants.

SEELOC® self-sealing washers are vibration-resistant, each having a silicone rubber section, molded and bonded to a stainless steel formed washer. These **self-sealing washers** are designed for use with regular screws, bolts or studs for sealing panels and enclosures having large or irregular clearance holes or slots, and can also be used to seal openings of protruded mounting holes.

ASK APM

Is it the Right Fit?
